## Skyrim dawnbreaker max stats

in: Skyrim: Gameplay Stub, Skyrim: Lists Share for other uses, see Leveled items reference loot or task rewards that vary in strength depending on the Character Level. At lower levels, these items have weaker base statistics, while at higher levels these statistics increase. To get the most out of these weapons and armor, Dragonborn must obtain them after having the highest base damage/defense value. List of level items[source | edit] Weapons[source | ed |it] Armor[ed |it source] Jewelry[| edit source] Note[| edit source] A leveled element uses basic statistics from the date Dragonborn first entered the item's location. If Dragonborn does not collect the item and leaves, the base statistics will remain the same when the first one is entered, regardless of the Dragonborn level returns and claims the item. For example, Dragonborn enters The Riftweald Manor at Level 12, but misses or chooses to get Chillrend. Dragonborn is on its 27th day at Riftweald Manor. Although Dragonborn's level was 27, the base stats were previously set at 11-18. See also[| edit source] Leveled Creatures (Skyrim) Random Loot (Skyrim) Skyrim: Gameplay Stub Skyrim: Lists \*Disclosure: Some of the links above are linked links, meaning Fandom earns a commission at no additional cost to you. Base Damage Weight Base Value 12 10 740 Burns for 10 points, and if undead is killing, cause a fire a chance [sic] [Fiery don't change that. This misspelled word is how it looks in-game.] don't turn or undead nearby explosion. See Dawnbreaker for other uses. We call mortals dawnbreakers, because they were beaten in a sacred light that shattered my enemies, burning corruption and false life. —Meridia[src] dawnbreaker is a unique one-handed sword found in The Elder Scrolls V: Skyrim. Acquisition [editing |] Dawnbreaker is a Daedric work given as a gift by Daedric Prince Meridia upon completion of the Dawn mission. Enchantment[| source] dawnbreaker carries a unique spell called Meridia's Retribution that works similar to the infected soul trap on target for ten seconds each hit. If the target is killed in that time, it could explode. For ten seconds, the chance of triggering an explosion is 1 - (.75 ^ x), x strike count. In other words, the more the target hits, the more likely the explosion will be. The explosion only happens if the target is dead. The kill blow that triggered the explosion doesn't need to be dealt with with dawnbreaker. A second spell deals fire damage of 10 to 15 points per hit. Fire Increased Flames depend on perk, damage in first place is related to 12 points and 15 points for the second. Ahzidal's MaskDR could increase fire damage to 17. This explosion will damage any ne soon undead, including turning immortal followers such as serana and dead insemminers, depending on the level, and can cause any survivors to escape for a while. The immortals who died in the explosion will turn into piles of ash. The fiery explosion has the same visual effect and function as the Bane of the Undard, thereby taking advantage of necromage. If someone is a vampire and is fast enough when the explosion takes effect, they can see this unique version of Bane of the Undead, originally called the light of Meridia. Remember that as a Vampire Lord it can affect Serana. If the player is a Vampire or Vampire Lord, the explosion will damage and one low health can kill the player, in the same way that other undead effects. In addition, there are a very high number of these gun fees; much higher than most magical weapons. Since soul stones are back in a fixed number of charges, this weapon requires more than a single large soul to fully charge. Smithing [editing |] Dawnbreaker can be upgraded with an ebony ingot and Arcane Blacksmith perk, however, it does not benefit any Smithing perks. This means that over 100 weapons cannot be improved in flawless quality that has passed without increasing smithing skills. This can be achieved using magical clothing or blacksmithing cursions for smithing fortify. Usefulness [editing |] While other swords suffer higher damage, Dawnbreaker's instilled special magic is very useful for dealing with draugr, especially when encountering a group of immortals in a small space. High-level enemies such as a Draugr Deathlord attack alongside several lower-level ones that can be killed by several hits almost at any time. The resulting explosion kills the low-level undead at the time and causes the high-level draugr to escape. What's more, investing in One-Handed skill will increase the basic damage that gives you weapons. It's also an effective weapon against vampires. In addition to being very vulnerable to fire, they are also undead, so the fiery explosion is affected. However, if Dragonborn is a vampire, the resulting explosion will affect them, as will they. As Dawnguard members will be useful when fighting vampires, and will be especially useful during the siege of Volkihar Castle, you may want to get it. The explosion will also trigger and affect ash spawning on the ground in the Dragonborn DLC in Solstheim, making it useful against them as also. However, they resist the magic of fire, reducing the potential for damage to the weapon, the actual physical damage it does. Replication exploit[| edit source] Two copies of Dawnbreaker can be obtained. This is achieved by casting a spell or using a shouting with significant kinetic force, such as Next to the sword altar after defeating FireStorm, Fireball, Fire Rune, Ice Storm, Malkoran and his shades. This causes you to fly through the room with a copy of the dawnbreaker, the original still stays where it is. Find and receive the copy before receiving the original altar, because in doing so the search ends and carries Dragonborn out of the dungeon. Although this appears to work in all versions, it is inconsistent and not guaranteed. Errors[| edit source] Contain errors related to Dawnbreaker (Skyrim) in this section. Before adding an error to this list, consider the following: Please reinstall an old record to verify whether the error is still present. If the error still occurs, please publish the error report with the appropriate system template 360/XB1, PS3/PS4, PC/MAC, NX, depending on which platform(s) the error encounters. Be descriptive when listing errors and corrections, but avoid having conversations using descriptions and/or first-person anecdotes: such discussions belong to the appropriate forum board. Click to show bugs malkoran's Shade is not unusual to find another copy of the sword in its inventory, if it was killed near the altar, it can be exploited to achieve a total of three Dawnbreakers. PS3 Sometimes Dawnbreaker will shine brightly as it is constantly scratched. PS3(Fix) Sheathing and red drawing will return to normal. The PC 360 PS3 Dawnbreaker will sometimes shine very brightly as it enters new territory. This can be fixed by changing weapons. Pc 360 PS3 Dawnbreaker does not receive charge by perk Soul Siphon. Pc 360 PS3 This weapon seems to be able to accidentally equip itself to handle the same as another weapon at the same time. This may be caused by an item replication error above. If the PC 360 PS3 is equipped with a different type of weapon in the left hand, dawnbreaker can take the form of a left weapon. Daedric was confirmed with his sword. To fix un-equip and then re-equip dawnbreaker, the weapon must now be displayed correctly. PC 360 PS3 It is recommended to record this before collecting swords after being told. This is because the Dragon was brought ashore by meridia, they can be killed after landing. The PC entering the TCL console command can block it, but only if it is done in advance. After chatting with PS3 Meridia, it is possible to escape this disruption by running towards the water. Also try restarting PS3 and try again, as it is a matter of loading out the fall before hitting the ground. If the load is too slow or Dragonborn is positioned too uphill, they will hit the ground and die. Use Kinect for Quicksave before collecting 360 Swords. If the above error occurs, use the Quickload command before hitting the ground. If 360 Dragonborn remains completely immobile during all cutscene with Meridia, it is possible that they can completely avoid this disruption. When is PC 360 PS3 To the sky, a dragon can follow and attack during dialogue with Meridia, making it impossible to return to the ground. It will work to re-load and kill the dragon before placing the mark, we will stay away from the conflict in the sky and wait a few hours. The dragon will disappear and the conversation with Meridia will

continue. Placing the PS3 Dawnbreaker on a gun rack can cause it to glide up to the ceiling just above the shelf on which it is placed. Placing Dawnbreaker on a gun rack could cause it to disappear. 360 Dawnbreaker could disappear if an enemy shouts disarmament. 360 PS3 There is a small chance to shout before seeing malkoran struggle and see that a frost will cause a frost spell instead of a fire during dawnbreaker hit with a don. If the PC 360 Dawnbreaker gets knocked off the pedestal during the fight, it can be picked up from the ground. It can then be taken by activating the pedestal. As Dragonborn will be drawn into the sky at that point, it is recommended to take a second. If you have 360 Sunborn's own inventory Sunhallowed Elf Arrows and displays them, Dawnbreaker will shine brightly. This can be corrected by equipping and re-equipping. If NX Dragonborn Double Wielding twins are through one of the above iteration glitches, it transforms into a Vampire Lord, and uses Revert Form while in magic mode, vampire Lord's Drain Life magic will remain equipped to the right hand of Dragonborn in normal form. The dawn dawn in which Dawnbreaker was replaced will still be visible, but it will constantly tear it down until it is re-equipped.
